incorporated into mucoadhesive gastro retentive tablets. The release. kinetic of the prepared tablets was evaluated by using PCP Disso V3®. software and it .... was chosen on the basis of goodness of fit test. The data were processed for regression analysis using PCP Disso V3 software. Infra Red Spectral analysis:16 IR .... The drug release kinetics were evaluated by the model-dependent (curve fitting) method using PCP Disso v3 software shows Batch-F4 shows to best fit with .... The magnitude of mean dissolution time and dissolution efficiency for each formulation was calculated using pcp disso v3 software pune, india based on eqn.. SNEDDS dissolution behavior was attributed to oil/surfactant ratios and ... Ternary phase diagram was plotted using PCP-Disso software (V3; ... The data reading was then processed for dissolution data using PCP Disso v3 software. Lag time was considered and all the data was processed for fitting of the .... Handling of software 's: PCP Disso-V3, Minitab-17, Six Sigma (Black Belt), QbD and DOE including OFAT, RSM, CCD, BBD, Taguchi, Full factorial and Mixer ....
